

Welcome to the digital age

Today, it is hard to image a world without digital solutions. Digitalisation has also long since arrived in industry. This is good news for you: digitalisation brings with it innovations promising better efficiency and lower operating costs. But how can you benefit from these advantages?

Make your transition from the analogue to the digital world easier – with digital solutions from KSB. They offer many advantages from which you stand to benefit in the short and long term:

Transparency

Digital systems provide accurate measurement data which not only offers you an overview of the current status of your system, but also helps you to plan ahead.

Optimisation

Digital technology enables you to increase the energy efficiency and reliability of your system without having to undertake manual modifications.

Procurement

Digital solutions save you time, money and effort in all ordering processes required for your system.

That is why we also call our digital solutions TOP services.

Pumps • Valves • Service

Digital solutions from KSB
Our TOP services

**NOT CLEVER
IF YOUR PUMPS
AREN'T SMART.**

0308.021-EN / 01.20 / © KSB SE & Co. KGaA 2020 - Subject to technical modification without prior notice.

Transparency

Comprehensive monitoring of your processes

KSB's digital transparency solutions give you a real-time overview of the status of your pump population and its output, allowing you to take the next step towards optimisation.

Our services

- **KSB Guard:** the intelligent pump monitoring system
- **KSB Sonolyzer®:** the free noise analysis app for asynchronous motors

Your benefits

- Deeper insights
- Easier planning

Savings in maintenance costs

* Estimation of the maximum potential saving made with help from sources including: VDMA investment calculator; German Academic Association for Production Technology (Wissenschaftliche Gesellschaft für Produktionstechnik, WGP) Position Paper "Standpunkt Industrie 4.0"

Optimisation

Efficiency & reliability taken to the max

KSB's digital optimisation solutions let you get the most out of your system. You can avoid downtime while saving energy and hard cash if your pumps can be operated both reliably and flexibly in line with demand.

Our services

- **MyFlow:** the innovative drive solution for constant flow applications
- **PumpDrive:** the latest generation of KSB's variable speed system

Your benefits

- Exploitation of efficiency potential
- Flexibility when dealing with fluctuating and constant demand
- Fewer failures due to improved operational reliability

Energy savings

* cf. e.g. KSB FluidFuture®

Procurement

Process orders faster & smarter

Fast, direct, unrestricted access to information: KSB's e-commerce services let you benefit from the advantages of the internet to equip, repair and maintain your system and thus save process costs.

Our services

- The KSB online customer portal

Your benefits

- Optimised business processes
- Extensive online selection of products and spare parts as well as configurations
- Detailed information options

Savings on process costs
