More information: www.ksb.com

AmaDrainer® Box Mini – Automatic Waste Water Lifting Unit for Above-floor Installation

Material variant
for aggressive fluids
available (variant C)

Fast installation and ease of handling

- Ready-to-connect waste water lifting unit: pre-installed pump saves time
- No accessories required

Attractive styling well-suited to visible installation

- Low-height triangle-shaped tank of modern design with wall mounting option
- Space-saving, stable solution and low vibration level

No bad odours

- New type of moisture-resistant activated carbon filter: long life, excellent odour absorption, compliance with hygiene requirements
- Integrated overflow protection

Flexible use

- Large variety of connection options: DN 32, DN 40 and DN 50 connection diameters with self-sealing rubber sockets
- 2 inlet levels can be selected, e.g. for washing machine, dishwasher, shower, etc.
- Discharge line can be connected either on the left or on the right.
- One float can be set for 2 switching levels.
- Shower connection as a standard

Reliable and easy-to-service

- Powerful, maintenance-free submersible motor pump type AmaDrainer 301
- High availability

Fluids handled

Standard design – Particle size 10 mm
Slightly contaminated water

Variant C – Particle size 10 mm
Aggressive fluids

AmaDrainer Box Mini is not suitable for sewage from urinals and toilets. For these applications, please use our mini-Compacta sewage lifting units.
