KSB Delta Compact – Variable Speed Pressure Booster System

Applications:
- Drinking water supply for residential and office buildings
- Irrigation/spray irrigation
- Rainwater harvesting
- Service water supply systems in trade and industry

KSB Delta Compact – Variable Speed Pressure Booster System

- **Energy-efficient**
  Energy-efficient operation and constant pressure ensured by speed control of all pumps

- **Drinking water**
  Suitable for use in drinking water applications

- **Straightforward commissioning**
  Plug-and-play design

- **Space-saving**
  Very compact design

- **Corrosion-resistant**
  Powder-coated materials and stainless steel

- **Operating reliability**
  Integral dry running protection
