KSB Delta Compact – Variable Speed Pressure Booster System

Applications:
- Water supply for residential and office buildings
- Irrigation/spray irrigation
- Rainwater harvesting
- Service water supply systems in trade and industry

More information:

KSB Delta Compact – Variable Speed Pressure Booster System

1. Energy-efficient
   Energy-efficient operation and constant pressure ensured by speed control of all pumps

2. Straightforward commissioning
   Plug-and-play design

3. Space-saving
   Very compact design

4. Corrosion-resistant
   Powder-coated materials and stainless steel

5. Operating reliability
   Integral dry running protection
