KSB Delta Compact – Pressure Booster System

Applications:
- Water supply for residential and office buildings
- Irrigation/spray irrigation
- Rainwater harvesting
- Service water supply systems in trade and industry

More information:

KSB Delta Compact – Pressure Booster System

1. **Straightforward commissioning**
   Plug-and-play design

2. **Space-saving**
   Very compact design

3. **Corrosion-resistant**
   Powder-coated materials and stainless steel

4. **Operating reliability**
   Integral dry running protection

5. **Pressure indication**
   Pressure gauge
